Low Birth Weight (% of births ,5#8oz/2500gm)	49 th	(10.8%)

Review of Meeting #1

REGION 3		
Ranking	PRIORITY	%
1	Behavioral Health/Mental Health/Addictive Disorders	26.8
2	Nutrition/Healthy Eating	23.55
3	Chronic Disease Management	19.86
4	Healthcare and Insurance	17.38
5	Unemployment/Economic Development	12.41

SWOT Emerging Themes

Priority 1: Behavioral Health, Mental Health, Addictive Disorders

Strengths

- Range of services available via healthcare, government, and education agencies
- Work across stakeholder agencies (e.g., law enforcement and healthcare)

Weaknesses

- Lack of services (e.g., acute care, care for adolescents, available beds, family supports, etc.)
- Lack of or diminished funding for MH/BH
- Access (lack of transportation, insurance, ability to afford care)

Opportunities

- Partnering with school systems and universities
- Increasing awareness of community stakeholders about where and what services and resources are available

Threats

- Lack of coordinated care (linking to services and follow-up)
- Stigma and not knowing/acknowledging a need for care
- Budget cuts

SWOT Emerging Themes

Priority 2: Nutrition & Healthy Eating

Strengths

- Programs to increase awareness and access to healthy foods and nutrition across multi-sector agencies/orgs

Weaknesses

- Challenges with cultural and behavior change
- Limited access to healthy foods (e.g., food deserts)

Opportunities

- Programming and partnerships to increase knowledge and promote behavior change for healthier eating and living and access to healthy foods and physical activity

Threats

- Poor food quality; lack of confidence in safety of food to eat
- Cultural or behavioral preferences for unhealthy foods

SWOT Emerging Themes

Priority 3: Chronic Disease Prevention & Management

Strengths

- Hospitals and other healthcare agencies providing services and resources

Weaknesses

- Lack of population and patient education and awareness (about diseases and management and prevention)
- Cost of chronic care management is high

Opportunities

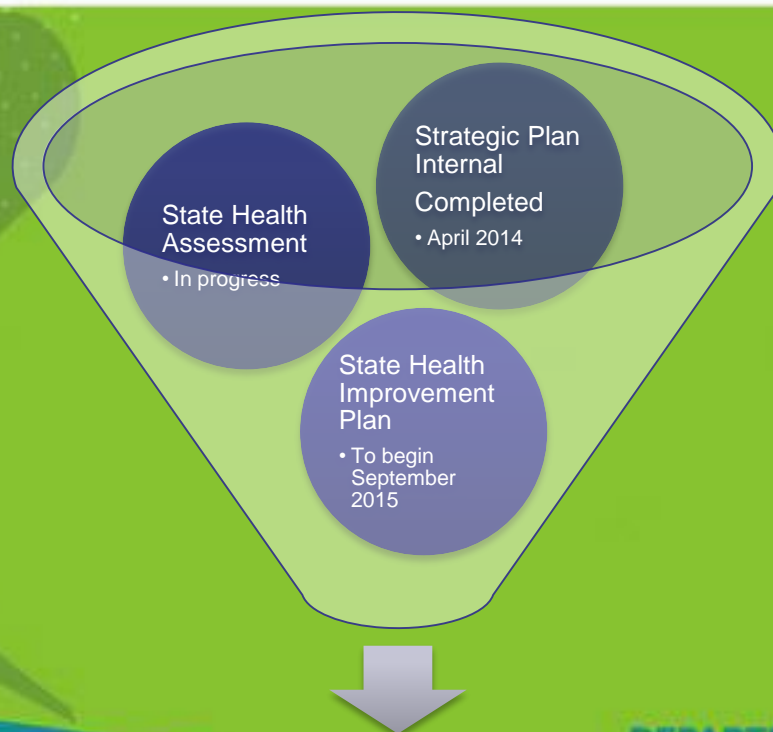

- Provision of management and prevention services and resources through multiple agencies and organizations
- Collaborative work across sectors (e.g., CBOs, universities, FQHCs, etc.)

Threats

- Access (e.g., lack of access to facilities in all parishes, transportation, not enough providers accepting Medicaid/Medicare, costs of treatment, etc.)
- Individual behaviors, responsibilities (e.g., perception of foods, medication, diet, exercise; lack of interest in self-care; insufficient primary prevention)

A HEALTHY LOUISIANA

*Creating Our
Blueprint
for the Future*

Strategic Plan (internal to OPH)

- Goals, Objectives, Action steps
- 5 Priorities
 - Health Information Technology
 - Increase Financial Stability
 - Improve Internal/External Collaboration
 - Improve Workforce Development
 - Reduce Health Disparities

State Health Assessments

- Meeting 1 (March 2015- June 2015)
- Meeting 2 (July 2015- August 2015)
- Uses quantitative and qualitative methods to collect and analyze data to understand health in the regions/state, prioritize health issues

State Health Improvement Plan

- Describes how public health stakeholders and system partners will work together to improve the health of the state
- Develop, Implement, Evaluate & Monitor

How to Stay Informed

www.dhh.louisiana.gov/sha-ship

- Meeting 1 data presentation
- Pre-meeting stakeholder Survey results
- Meeting 2 presentation
- Upcoming regional meetings
- OPH Strategic Plan
